Underwriting Sweet Spots

In our varied portfolio, our risk appetite crosses many industries with the following sweet spots:

- Financial institutions, communications, media and IT, manufacturing risks (e.g., automotive industry, electronics, electrical equipment, machinery), technology companies, healthcare, retail, general services, and quality real estate accounts.
- We offer Terrorism and Political Violence Coverage, both embedded and stand-alone.
- AIG Property is open to looking at a majority of industries with the ability to commit significant capacity.

Airlines and Online Travel Agencies

Based on our regional experience and partner portfolio, we are the leading travel insurance provider in offering the right product and technology solution for existing and new partners.

Our focus is to offer the travel insurance product within the ticket booking journey via the partner website and thereby becomes part of the ticket booking. Travel insurance policies are issued on a real time basis at the time of ticket/travel insurance purchase via the partner website, and policy documents are sent to the traveller directly by email with a system generated policy number from the AIG back-end system.

Financial Institutions

We focus on No Added Cost (NAC) deals, which are embedded travel insurance products for customer accounts or credit cards. Premiums are based on card type and volume of cards to be insured. We will often look at these deals in conjunction with Accident & Health where the client or broker is seeking multiple products to embed in their account or card.
